Dear Adoption Advocate:

This is the most recent edition of the NC Kids Family Listing. These families are interested in adopting children with special needs and have been approved for placement. Please review to determine if any of these families might be a suitable placement resource for children in the custody of your agency. If you think one of these families might be a potential match for one of your children, please call NC Kids at the above number (or download additional copies from <http://www.state.nc.us/dss/proinfo/cw.htm>). NC Kids has copies of each family's preplacement assessment and would be happy to send you a copy. We are available from 7:00 a.m. until 7:00 p.m. Monday through Saturday.

It is our hope that when new families are approved to adopt, you will complete the Family Registration Form (DSS-1821) and send it along with a photograph and a copy of the family's preplacement assessment to the address above so they can be added to the Family Listing. We believe that this is a valuable resource in assisting the children of North Carolina in finding a permanent family.

Feel free to circulate this list to all adoption social workers. The Family Listing is updated monthly and can be found at <http://www.dhhs.state.nc.us/dss/proinfo/cw.htm>.

If you have questions or information to share, please feel free to contact us at 877-625-4371.

Sincerely,
Beverley Smith

NC KIDS FEATURED FAMILY OF THE MONTH

Meet the Spano Family...

SPANO
060-26311

Couple
Caucasian

Chris and Pam and their three biological daughters hope to make their family “tighter and stronger” by adopting a Caucasian boy between four and ten years of age. Because of Pam’s background in special education, the Spanos feel comfortable adopting a child with mild to moderate learning challenges. They are open to minor, correctable medical conditions, or mild behavioral or emotional challenges, but because of their active lifestyle, they feel best equipped to parent a child healthy enough to participate with them. The Spanos have appropriate expectations regarding the bonding and adjustment process for all family members and are prepared to provide the structure and support needed.

BREY/WARD
026-25443

Couple
Caucasian

Steven Brey and Lynda Ward are a highly intelligent, energetic couple. They are both Methodist ministers who are open to insights from other religions. Steven is the pastor at a large nearby church that they attend. Steven and Lynda feel that they have been blessed and would like to share their blessings with a child. They offer security, loyalty, a loving home, and an environment where they can explore who they are and consider opportunities while knowing they have someone to support them if they make mistakes. They share their home with five indoor de-clawed cats and a hamster, and are ready to include a child.

BROOKS
090-26393

Couple
African American

Aaron and Sara Brooks have plenty of experience with children, through both adoption and birth. Their 14-year-old adopted son's special needs have been a challenge, but they are resourceful in getting what is best for the boy. The Brooks' are open to mild physical and/or moderate emotional and learning challenges. They are open to developmental delays, but do expect the child to be able to live independently as an adult. Their birth son and extended family are aware and supportive of their wish to adopt as many as four children of any sex or ethnicity, with the oldest being a girl up to the age of 16. They hope to share their love of being outdoors, going to flea markets, having barbecues, swimming, and going to the duck pond with the new members of their family.
